

Written comments may be submitted as described under **SUPPLEMENTARY INFORMATION**. All comments, including names and addresses when provided, are placed in the record and are available for public inspection and copying. The public may inspect comments received at the Petersburg Ranger District Office or the Wrangell Ranger District Office, Monday through Friday at 8:00 a.m. to 4:30 p.m. Please call ahead to facilitate entry into the building.

FOR FURTHER INFORMATION CONTACT: Linda Slaght, RAC Coordinator, by phone at 907-772-5948 or via email at linda.slaght@usda.gov.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8:00 a.m. and 8:00 p.m., Eastern Standard Time, Monday through Friday.

SUPPLEMENTARY INFORMATION: The purpose of the meeting is to:

1. Review progress of previously funded projects;
2. Review new project proposals; and
3. Make recommendations for allocation of Title II funding to projects.

The meeting is open to the public. The agenda will include time for people to make oral statements of three minutes or less. Individuals wishing to make an oral statement should request in writing by Friday, May 15, 2020 to be scheduled on the agenda. Anyone who would like to bring related matters to the attention of the committee may file written statements with the committee staff before or after the meeting. Written comments and requests for time for oral comments may be sent to Linda Slaght, RAC Coordinator, P.O. Box 1328, Petersburg, Alaska 99833; by email to linda.slaght@usda.gov or via facsimile to 907-772-5995.

Meeting Accommodations: If you are a person requiring reasonable accommodation, please make requests in advance for sign language interpreting, assistive listening devices, or other reasonable accommodation. For access to the facility or proceedings, please contact the person listed in the section titled **FOR FURTHER INFORMATION CONTACT**. All reasonable accommodation requests are managed on a case-by-case basis.

Cikena Reid,

USDA Committee Management Officer.

BILLING CODE 3411-15-P

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board [B-30-2020]

Foreign-Trade Zone (FTZ) 183—Austin, Texas, Notification of Proposed Production Activity, Rohr, Inc., (Aircraft Engine Parts), San Marcos, Texas

Rohr, Inc. (Rohr) submitted a notification of proposed production activity to the FTZ Board for its facility in San Marcos, Texas. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on May 8, 2020.

The applicant indicates that it will be submitting a separate application for FTZ designation at the company's facility under FTZ 183. The facility is used for the production of aircraft engine parts. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Rohr from customs duty payments on the foreign-status components used in export production. On its domestic sales, for the foreign-status materials/components noted below, Rohr would be able to choose the duty rate during customs entry procedures that applies to parts of turbofan engine exhaust systems (kits, nozzles, center body assemblies) and parts of nacelles (fan cowl doors, thrust reverser translating sleeves, inlet cowls, thrust reversers) (duty-free). Rohr would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The components and materials sourced from abroad include: Stainless steel spacers; articles of nickel alloy (bolts, bushings, shear pins, spacers, washers, bolt retainers, end caps); nickel alloy fastener sets (consisting of nuts, bolts, washers, and fastener retainers); titanium link arms; titanium link pin retainers; exhaust nozzle components (attachment rings, closeout rings, flanges, frames, rings, stiffener rings); fan cowl longerons; fan cowl panels; inlet cowl panels; and, translating sleeve components (access panels, fairing sliders, panels, pressure shells) (duty rate ranges from duty-free to 3.5%). The request indicates that certain materials/components are subject to special duties under Section 301 of the

Trade Act of 1974 (Section 301), depending on the country of origin. The applicable Section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is June 30, 2020.

A copy of the notification will be available for public inspection in the "Reading Room" section of the Board's website, which is accessible via www.trade.gov/ftz.

For further information, contact Diane Finver at Diane.Finver@trade.gov or (202) 482-1367.

Dated: May 18, 2020.

Andrew McGilvray,

Executive Secretary.

Foreign-Trade Zones Board

[B-31-2020]

Foreign-Trade Zone (FTZ) 82—Mobile, Alabama; Notification of Proposed Production Activity, Rohr, Inc., (Aircraft Engine Parts), Foley and Loxley, Alabama

Rohr, Inc. (Rohr) submitted a notification of proposed production activity to the FTZ Board for its facilities in Foley and Loxley, Alabama. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on May 8, 2020.

The Rohr facilities are located within Subzone 82]. The facilities are used for the production of aircraft engine parts. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Rohr from customs duty payments on the foreign-status components used in export production. On its domestic sales, for the foreign-status materials/components noted below, Rohr would be able to choose the duty rate during customs entry procedures that applies to parts of turbofan engine exhaust systems (kits, nozzles, center body assemblies) and parts of nacelles (fan cowl doors, thrust
